The review took place in a downpour rain, but the chief executive stood his ground until the long line of drenched soldiers passed. By a vote of the commissioned officers of the guard to-day it was unanimously decided to have a permanent encampment ground, and the

Governor appointed a committee to se-lect a site, which will probably be Wrightsville.

The committee consists of the colonel of each of the three regiments, the com-mandants of the engineering, commis-sary and medical departments of the State Guard and General Carl A. Wood-ruff, United States army, retired.

(Special to The Times-Dispatch.)

FREDERICKSBURG, VA., August 7.—
In an altercation Friday evening between Minor Sullivan and Carter Jett, in Stafford county, near Brooke, Sullivan shot at Jet with a shotgun, but only a few shot took effect, and Jett was not badly hurt. The cause of the trouble grew out of the fact that Jett's children gwre using water from a spring which Sullivan claims and had forbidden them to use. A warrant has been issued for the arrest of Sullivan, and the case will attract much attention.

SCROFULA FROM PARENT TO CHILD

The laws of heredity are invariable and the diseased blood of parents is handed down to children in the form of nanded down to children in the form of Scrofula. Being thus deeply rooted nothing can reach the disease but a con-stitutional remedy. The very foundation of the blood is diseased, and until it is purified and made strong, those who are born with a scrofulous tendency cannot have the blessing of robust health have the blessing of robust health.

Cleveland, O., 122 Brownell St. Cleveland, C., 122 Brownell St.

I inherited Sorofula from my ancestry, and this means, of course, weak, impure blood and a run-down, debilitated condition of the system. Treatment of physicians did not do me anything like the good S. S. did last winter when I took it. It promotes appetite and digestion, rives strength and energy, builds up the general health in every way, and in addition to being an excellent blood purifier it adds to its success as a remedy for Sorofule. It did more for me than anything I have used, and with pleasure I recommend it. S. S. S. completely sured me of this blighting disease.

MES, LOUISE COHEN,

S. S. S., the king of blood purifiers, is the medicine that is required, because it changes the quality of the blood by cleansing it of all poisons and impurities, building it up and strengthening the entire system. The ceremony, which was performed by Rev. Dr. George Braxton Taylor, assisted by Rev. Dr. George Boardman Taylor, took place in the choir of the cathjust under the cathedrals great stained giass window. It would be hard to find a more ideal place for a marriage than this beautiful and quaint old cathedral, begun in 1421 and not comple with its tower 323 feet high, until 1895. The organ which gave forth the music for the wedding, is one of the finest organs in Europe, having 56 registers and 5,000 pipes. This morning the organist of the cathedral, Herr Dr. K. Hess, presided at his great organ. Before the religious ceremony at the cathedral, the civil marriage had taken place at the mayor's office, where the bride and groom and witnesses entered their names in the official register, and whore the certificate of marriage was duly issued.

The fact that Forsyth jall is located at the Rome of United States District Attorney Holton makes the present ripple the more interesting. Real Issue Set Forth.

Surry, Va., August 4, 1905.
To all those of the Democratic party in Virginia who are interested in purity of elections and the maintenance of the rights of the individual voter:
The Montague Club, of Surry, feeling that probably never before have as important issues come before the Democracy for settlement as in the sensitorial conportant issues come before the Democracy for settlement as in the senatorial campaign, appeal to their fellow citizens, the plain voters of the State, the men behind the guns, the taxpayers, the men whose yotes are relied on to elect after the nomination is made.

We respectfully suggest that the personality of either of the respective candidates is a secondary consideration in this campaign; that the real issue is the right of the voter to a full and free expression

of the voter to a full and free expression

The men who opposed the new Consti The men who opposed the new Constitution, and who opposed, and in their hearts now oppose, the primary, which is the only intelligent and fair way of ascertaining the will of the people; who have fattened on public office and are determined to retain it at any cost, seek to obscure this issue, but deep down in all our hearts we know it is there, and that they are not to be trusted, because all through the past they have sought to muzzle, degrade and corrupt the electorate.

We and you have heard for years their We and you have heard for years their vaunting claim that every measure put through Congress has been the work of one man. But an intelligent community knows that such claims are absurd and ridiculous and simply a part of a deceptive game of politics.

Our only hope, and it is strong, is in the people. The voters all over the Sinte are aroused, and right well they know their friends and the issue before them.

But, unfortunately, mere numbers do

are aroused, and right well they know their friends and the issue before them. But, unfortunately, mere numbers do not always count, and this is to urge every honest voter, as he values his rights and privileges; as he values the atmosphere in which his children are to be raised, to bend every effort from now until the 22d of August to the accomplishment of two things.

The first is to reach some united action to secure a fair count of the ballot. County and city committees are calling this "insolence," "reflecting on the committee." &c., but the recent developments in Richmond and the experience of the past show that the "insolence." Is pardonable and the action necessary.

A fair, square man not only wants to be fair, but to be transparently honest. A friend in the polling place may watch, but he cannot protect. See that each candidate is represented by one of the judges of elections. If this is not granted, make the welkin ring.

The second point is this: As a general thing, the officeholders and election workers are banded together for Sonator May-tin. Let the voters stand together for Montague. Talk to your neighbors, see them face to face, and come heart to heart in touch with them in this great fight for our rights and interests, and not only do this, but do it at once, and we will roll up a decisive majority. We have seen these struggles between the "organization" and the masses, and the masses win every time when the people are apouted.

masses win every time when the people are aroused.

Inaugurate the shoulder to shoulder campaign, neighbor to neighbor, friend to friend, and you will assert with invincible force, your rights and the Godgiven power of the people. Beware of the secret circular. In the past it has been the trick of these people to issue defamatory and false statements just before the primary day, and too late to be answered. Consider their source and inspiration, and by your steady vote hurl them back on the heads of their authors.

The battle is won. The people must triumph. Up, manhood of Virginial Show that high ideals and sentiment are, as you have always held them, of more value than place and favor and pelf, and that you knew your rights, and, knowing, dare maintains.
